Abstract:

The National Arab American Medical Association Faculty Disclosure Declaration

It is policy of the **National Arab American Medical Association** to insure balance, independence, objectivity, and scientific rigor in all its individually sponsored or jointly sponsored programs. All faculty members participating in any NAAMA apparent sponsored programs are expected to disclose to the program audience any real or apparent conflict(s) of interest that may have a direct bearing on the subject matter of the continuing medical education program. This pertains to relationships with pharmaceutical companies, biomedical device manufactures, or other corporations whose products or services are related to the subject matter of the presentation topic.

The intent of this policy is not to prevent a speaker with a potential conflict of interest from making a presentation. It is merely intended that any potential conflict should be identified openly so that the listeners may form their own judgments about the presentation with the full disclosure of the facts. **Speakers are free to discuss off-label uses for drugs, products or modalities, provided the audience is informed of this off-label use.**

It remains for the audience to determine whether the speaker's outside interests may reflect a possible bias in either the exposition or the conclusions presented.

CME PROGRAM: NAAMA's 22nd International Medical Symposium, Andalucía & Morocco
